

The **techno2019** exhibition scheduled to be held at the BMICH on **11th, 12th and 13th of October 2019**. The exhibition is set to provide a completely new and exciting experience while the organizing committee has taken measures to substantially increase the exposure given to Engineers and their work.

All members have been given a valuable opportunity to **display their work** by means of a high resolution digital screen which would continuously play a 3 minute video clip which may include still images, walk through videos etc. (audio material will not be played). In addition to that the member/organization can display a printed panel.

DISPLAY OPTIONS

A) PRINTED PANEL – SINGLE

printed panels **1200 mm x 2400 mm** with minimum resolution of 200dpi. Of Printed graphics.

B) DIGITAL DISPLAY PANEL + MODEL DISPLAY

01nos. 40" TV screen (Will be provided by the organizers). Balance of the **1200 mm x 2400 mm** panel will be a printed panel. Printed graphics to have a minimum resolution of 200dpi.

Videos to be limited to 3 minutes and in high definition and have an aspect ratio of 1920 x 1080 pixels.

In addition to one project on a printed panel a maximum of 5 projects may be featured in video format.

DETAILS OF PROPOSALS

RESERVATIONS AND DRAFT PROPOSALS

Draft proposals to be submitted to techno manager- IESL on or before **31st July, 2019**.

SELECTION OF PROPOSALS

Draft proposals will be evaluated by a panel appointed by IESL and inform the member within two weeks for the final submission.

CONTENTS
